Most Resume Advice is Obsolete, Claims New Resume Workshop Program Resume Advantage Pro Online Workshop Focuses on Modern Career Marketing

Palm Beach Gardens, Florida. June 1, 2013 - With the national unemployment rate slowly recovering from years of economic hardship, many unemployed and underemployed Americans remain desperate to find jobs. Now, a new interactive DVD resume writing program is offering a modern alternative to the pre-Digital Age advice the workshop's author claims is holding job seekers back.

Old standbys like pre-packaged resume objectives and resume writing services are inefficient in today's highly competitive job market, argues the author, Brian Hirth. His system, **Resume Advantage Pro**, instead tackles topics like career marketing, search engine optimization, and resume writing tactics focused on promoting an employees unique qualifications and skills.

"So much of the resume writing and job hunting advice people follow is outdated," says the author of the DVD resume writing workshop program. "Most resume writing services are a waste of money because they don't really explain what you need to know to succeed. It's not fair to the average job seeker. I created **Resume Advantage Pro** because I wanted to level the playing field and give everyone a chance to achieve success."

The average job seeker is certainly at a disadvantage in this difficult economic period. Data from the U.S. Labor Department reveals there were 11.7 million unemployed Americans as of May 2013. According to the Vermont Department of Labor, a typical job posting now brings in over 100 resumes, and employers only spend 15 to 20 seconds scanning each resume. But, the author of the **Resume Advantage Pro** system says the unemployed American still has a chance.

"Anyone can stand out with the right marketing tactics," Mr. Hirth says. "**Resume Advantage Pro** is designed to bring job seekers up to date, explaining how to use job hunting strategies and resume writing techniques many people haven't even heard of yet."

Unlike other resume writing workshops, **Resume Advantage Pro** doesn't stop after offering resume advice. **Resume Advantage Pro** aims to teach job seekers how to attract employers and sell themselves. The program uses 18 workshop modules, each covering a specific resume or career topic in detail. Each module uses a multimedia mix of DVD videos, workbook lessons, and CD / mp3 audio recordings to explain the material.

Resume Advantage Pro interactive DVD video workshop program is now available through Amazon.com for \$149.98. The program consists of more than 2 hours of DVD interactive material, two audio CDs buyers can listen to in their car, a 106 page instructional workbook, and a copy of the audio CD **Resume Secrets and Job Search Strategies**, which provides tips for boosting any resume or career. In addition, buyers are provided exclusive access to the online Resume Advantage Pro members' area that provides access to additional downloadable workbook material, mp3 audio recordings, and more...
